Sharing the Vision and Goals

The Coalition for Local Public Health

Familiarize with the agencies representing the Coalition for Local Public Health (CLPH), their role in the Special Commission and the State Action for Public Health Excellence – (SAPHE) Act

The SAPHE Act and the Special Commission

Identify the actions leading up to the SAPHE Act including the Special Commission on Local and Regional Public Health (SCLRPH)

The Special Commission Report, SAPHE Act and Recommendations for Workforce Credential

Understand the components of the Special Commission’s final report and SAPHE Act that focus on advancing the goals for workforce credentialing requirements

The SAPHE Act Impact

Understand the components of the recently filed legislation, SAPHE Act 2 (Statewide Accelerated Public Health for Every Community) that aims to accelerate improvements in the local public health system
Coalition for Local Public Health Overview

Phoebe Walker, MPPA
Coalition for Local Public Health Members
Coalition Early History

2003  Publication: A Case for Improving the Massachusetts Local Public Health Infrastructure

2006  Publication: Strengthening Local Public Health In Massachusetts: A Call To Action

2000s  CLPH part of the MA Regionalization Working group

2008  Publication: Local Public Health Communication Toolkit
CLPH Recent History

- **2016**: Commission Created: CLPH members had seats
- **2019**: Report Issued
- **2019**: SAPHE Act Introduced
- **2020**: SAPHE 2.0 Act Introduced
SAPHE – A History

Cheryl Sbarra, JD
Public Health Regionalization Working Group

1. Health departments stretched too thin since 9/11

2. More than 70% report they do not have enough staff to meet obligations

3. Public health budgets not keeping pace with inflation

4. Disparities in delivery of services depending on zip code

5. Nearly 1/5 of workforce eligible to retire in next 2 years

6. Health inspectors and public health nurses in short supply

7. Workforce qualifications and salaries greatly vary among municipalities

8. Board of health members, both elected and appointed have limited formal training
# Recommendations

| 1 | Develop various model organizational structures to accommodate differences |
| 2 | One size won’t fit all! |
| 3 | Respect, support and accommodate existing structures |
| 4 | Respect historical relationships |
| 5 | Develop a set of governing principles  
• Clear understanding of roles and responsibilities  
• Clear understanding of legal authority |
| 6 | Adequately fund these sharing of services organizational structures |
| 7 | Develop workforce performance standards |
| 8 | Build on existing legislation to create organizational structures |
Thoroughly review current state laws to see if there already existed a legal framework for regionalization

- Short answer – Yes
- Long answer – Need to amend existing public health district laws

### G.L. c. 111, §§28A, 28B and 28C – Summary of Amendments:

<table>
<thead>
<tr>
<th>Board of Health Must Vote to Create a District</th>
<th>Local Boards of Health Retain Legal Authority to Enact Regulations</th>
<th>Employee Protections When Moving from City/Town to District</th>
<th>Informal Agreements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Previously, BOH was not involved in decision making</td>
<td>Previously, not the case in a 27B district</td>
<td>• Intergovernmental Agreements (IMA’s)</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Contracts between municipalities for shared services</td>
<td></td>
</tr>
</tbody>
</table>
Primary Research Questions

Will cross jurisdictional sharing help to provide essential public health services to MA residents?

- 2009: Call for proposals
  - $3,000 planning grants

- Requirements
  - Serve a population of 50,000 and/or
  - Serve an area of 150 square miles

- Strongly encouraged 4-6 planning meetings
  - Local decision regarding who to include in the meetings
    - Health agents, directors, board of health members, municipal administrators, etc.
### 3 Groups of Municipalities Selected (out of 20 munis) to drive changes

<table>
<thead>
<tr>
<th>Group</th>
<th>Task Description</th>
</tr>
</thead>
</table>
| **1** | **Group 1: Expand existing regional district**  
- Conduct PHAB assessment  
- Review findings  
- Engage regional planning agency  
- Form regional advisory committee  
- Examine fiscal and governance options  
- Draft sample Memorandum of Agreements |
| **2** | **Group 2: Build a regional health district**  
- Early focus on relationship building  
- Conduct Visioning exercises  
- Identify commonalities and challenges  
- Gather survey data  
- Establish funding, staffing, governance models & plans  
- Review regional options |
| **3** | **Group 3: Share and communicate public health services**  
- Present local health data and public health threats  
- Highlight data on limited capacity  
- Agree to start small  
- Work on grant writing for multi municipal projects  
- Review FDA food safety grant  
- Identify fiscal agent/lead agency  
- Work on governance structure |
Observations About Grantees’ Work

Major infrastructure shifts are a lot of work! Multiple people need to be involved in decision-making for each municipality

<table>
<thead>
<tr>
<th>Major Infrastructure Shift Challenges</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Difficult to advocate for change voluntarily</td>
</tr>
<tr>
<td>• Local public health leaders are stretched too thin; difficult to plan and vision</td>
</tr>
<tr>
<td>• Need supporting evidence on benefits of sharing services</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Common Questions</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Will my BOH lose authority?</td>
</tr>
<tr>
<td>• How much will it cost?</td>
</tr>
<tr>
<td>• Who will do the work?</td>
</tr>
<tr>
<td>• Will there be grant money?</td>
</tr>
<tr>
<td>• How do we start?</td>
</tr>
</tbody>
</table>
**Local Public Health During COVID-19**

<table>
<thead>

<tr>
<td>Recommending and enforcing isolation and quarantine</td>
<td>Responding to resident and business complaints regarding unsafe practices, mask wearing, gatherings and events</td>
</tr>
<tr>
<td>Enforcing essential business orders &amp; re-opening guidance and providing input to businesses on safe operating procedures</td>
<td>Working with municipal officials to assure inspection/approval of new childcare “co-operatives”</td>
</tr>
</tbody>
</table>
Exacerbated Challenges With COVID-19

The COVID-19 pandemic has shown that our local public health system is not adequately structured, staffed, or financed to meet large scale public health challenges.

Decentralized structure of 351 separate boards of health inequities in protections across municipalities.

Viruses don’t respect municipal borders. Extreme variability increases danger to all communities.
The Special Commission on Local and Regional Public Health was established in 2016 to:

1. Assess the effectiveness and efficiency of municipal and regional public health systems

1. Make recommendations regarding how to strengthen the delivery of public health services

The multisector commission includes the following named organizations in addition to 4 legislators, 8 appointees by the governor, and 4 executive branch departments:

- Massachusetts Taxpayers Foundation
- Massachusetts Municipal Association
- Massachusetts Public Health Regionalization Working Group
- Massachusetts Taxpayers Foundation
- Massachusetts Health Officers Association
- Massachusetts Environmental Health Association
- Massachusetts Public Health Nurses Association
- The Western Massachusetts Public Health Association
The Special Commission on Local and Regional Public Health: Recommendations

In June 2019, the SCLRPH released final consensus recommendations including:

✔ Elevating the standards by:
  ● Identifying ways for cities & towns to meet statutory requirements
  ● Assessing implementation of Foundational Public Health Services

✔ Strengthening service delivery by:
  ● Increasing the number and scope of comprehensive public health districts

✔ Improving data reporting by:
  ● Creating a standardized public health reporting system
  ● Strengthening DPH, DEP, and local public health capacity to collect and share data

✔ Setting education and training standards by:
  ● Making training accessible
  ● Implementing workforce credentialing standards adopted by SCLRPH
  ● Developing a system to ensure compliance

Committing appropriate resources to implement the above recommendations

*Consensus findings and recommendations: Special Commission on Local and Regional Health
In January 2019, Representatives Kane & Garlick and Senator Lewis filed legislation aligned with the recommendations of the SCLRPH.

The bill (HB1935/SB1294) will advance the goals of the SCLRPH by:

- Ensuring that all members of the local public health workforce have access to essential training.
- Creating an incentive program to support more effective and efficient delivery of services by increasing sharing across municipalities.
- Moving Massachusetts toward national local public health standards.

Chapter 72 of the Acts of 2020, An Act Relative to Strengthening the Local and Regional Public Health System (also known as the State Action for Public Health Excellence, or SAPHE, Act), signed by Governor Baker on April 29, 2020.
Local Public Health Workforce Background

- Massachusetts lacks LBOH workforce standards for experience, training or credentials
- Inconsistent ability of LBOH to adequately provide public health services
- LBOH staff range from trained and experienced to volunteer BOH members with no experience or credentials
- The workforce pool and pipeline is inadequate. Large number of experienced LPH workers are retiring
- Lack of credentials leads municipalities to undervalue their local public health workforce leading to lower pay, fewer staff and lower training budgets
- Few MA health departments can meet national standards, such as Foundational Public Health Services or PHAB accreditation
- Few MA BOH can devote time to non-immediate needs, such as chronic disease prevention, substance abuse, healthy eating, etc.
Special Commission Charge: Chapter 3 of the Resolves of 2016

**Relevant Language**
Evaluate the workforce credentials of the current and future public health (LPH) workforce as to the educational standards, credentials, and training.

**Key Questions**
What professional disciplines, competencies, and credentials are needed to ensure the delivery of minimum set of public health services?
Special Commission Findings & Recommendations

Commission Findings

• The Massachusetts local public health system does not adequately support its workforce with standards and credentials that align with the capacity to meet current mandates and future standards

Commission Recommendations

• Set education and training standards for local public health officials and staff and expand access to professional development by:
  
  • Implementing the local public health workforce credentialing standards adopted by the Commission,
  
  • Making training available and accessible to local public health departments, and
  
  • Developing a system to track and monitor workforce credentialing.
Workforce Credentials Recommended by the Special Commission for:

- Health Directors
- Health Agents
- Public Health Nurses
- Inspectors
- Clerks
- Board of Health members
Waivers

- Municipalities, at their discretion, may request a waiver for staff that do not meet requirements IF:
  - Staff has worked for local or state public health for at least 7 years
- Waivers may not be granted for specific inspection trainings
- If staff with a waiver changes jobs, a new waiver must be requested by the hiring municipality
- Most educational requirements have long implementation times built in
Can LBOH Meet the Credentials?

- Survey in 2018, 299 LBOH and 10 Districts responded
- 55% of municipalities currently have someone on staff with an RS credential; 21% had an REHS
- 73% of responding districts had an RS on staff (covers 49 municipalities)
- 27% of municipalities had a CHO on staff, as did 45% of the districts
SAPHE 2.0

Kristina Kimani
SUPPORT LOCAL HEALTH TODAY FOR A SAFE & HEALTHY TOMORROW

SAPHE 2.0 Act - Statewide Accelerated Public Health for Every Community

Ensure Minimum Public Health Standard for Every Community

Create a Uniform Data Collection & Reporting System

Increase Capacity & Effectiveness by incentivizing cross-jurisdictional sharing

Establish a Sustainable State Funding Mechanism to support local boards of health & health departments
SUPPORT LOCAL PUBLIC HEALTH TODAY FOR A SAFE & HEALTHY TOMORROW
SAPHE 2.0 Act - Statewide Accelerated Public Health for Every Community

An Act to accelerate equity & effectiveness of our local & regional public health system.
The COVID-19 pandemic has shown that our local public health system is not adequately structured, staffed, or financed to meet large scale public health challenges. This bill will accelerate improvements to this system, so that it adequately serves all residents, regardless of race, income or zip code. Faced with the inequities revealed by the pandemic, we must seize this opportunity to make change.

THE SAPHE 2.0 COALITION IS CO-CHAIRDED BY:
- Damon Chaplin, Health Director, New Bedford
- Kevin Mizikar, Town Manager, Shrewsbury
- Ruth Mori, President, MA Association of Public Health Nurses; Public Health Nurse, Wayland
- Aimee Petrosky, Health Director, East Longmeadow
- Sigalle Reiss, President, MA Health Officers Association; Health Director, Norwood
- Phoebe Walker, Director of Community Services, Franklin Regional Council of Governments
- Kevin Sweet, Town Administrator, Wrentham
- Brian Arrigo, Mayor, Revere
COME AND JOIN US!

SAPHE 2.0 COALITION
Statewide Accelerated Public Health for Every Community

Join the coalition to fight for legislation & funding that will accelerate improvements to the local public health system for every community.
